Subject:Change of marking method at SR4 and SR6 relays.

Description of Change: In order to continuous product improvement, we change the printing method on SR4 and SR6 relays from tamper print to laser printing. By that, the printing of especially the small characters is sharper, the change of types in production is easier and faster and the production quantity output can be improved. Furthermore, the production date code can be printed on top also and is therefore easier to read. All data specified in datasheet and approvals keep unchanged.

Reason: Product improvement.

Impact of Change:form - fit - function
