Subject:Adding a Raw Material Vendor

Description of Change: In an effort to raise our customer service and improve delivery of quality product to the customer requested dates, TE Connectivity will be adding a raw material vendor (for the pin/blade portion) for the below listed part numbers. This vendor (Luvata) is a preexisting raw materials supplier to TE Connectivity Automotive division. The facilities are TS16949 and ISO9000/1 certified. There will be no change to raw material composition (alloy) nor will electrical, mechanical, and environmental performance be affected. This activity will be completed once all due diligence is performed.

Reason: Product improvement. These efforts will position us better to serve your future needs. The addition of the alternate vendor is to address uncompetitive quotes. Dual sourcing will assure uninterrupted material supply while minimizing the impact of raw material cost escalation. Please contact your TE Connectivity Sales Engineer for any questions.

Impact of Change:form - fit - function

Key Dates:

Contact By Date:15-Feb-2017

Implementation Date:15-Feb-2017

Product Affected

1438299-4

2-1419158-5

1438299-2

1-1419158-6

The dates on the product change notification (PCN) are best estimate dates

determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
