

21-Feb-2017

**PCN #:**E-16-018253

**Subject:**DEUTSCH DTM13-R008/-GR01 EEC Box Headers.

**Description of Change:** Increased interface seal flange thickness to improve sealing robustness.

**Reason:** Product Improvement. Dear Customer, in an effort to continuously improve our products, TE-ICT will increase the interface seal flange thickness. This product change will not impact part fit or function. You may get mixed shipments. **IMPORTANT:** This is a continual improvement so the current and previous revisions of these parts can be used interchangeably in the field. These changes are being phased in gradually and previous revision can remain stocked until use. Product drawings are not affected.

**Impact of Change:**form - fit - function

**Key Dates:**

**Contact By Date:**30-Apr-2017

**Implementation Date:**30-Apr-2017

**Product Affected**

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
