

12-May-2017

PCN #:E-17-006440

Subject:Material substitution project for 6-21 pos. AMP MCP 2,8 mm tab header series. Related TE project: PRJ-17-000901027.

Description of Change: Change the raw material / resin of the tab headers from PA66-GF13 to PBT-GF15. Revision index and material marking on the parts will be changed. New revision of the related TE customer drawing (C-1355072) will be "D"

Reason: Product Improvement. Material substitution supports Green target of Operations by reducing energy waste: material supports lower processing temperatures and pressures. Lower tool and machine wear, increase tool running time.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
