

25-May-2017

PCN #:P-17-014446

Subject:Hard Wired Fuse and Relay

Description of Change: Manufacturing location change. Production capabilities of the following Part Numbers will be transferred from TEC Automotive to TEC Industrial Commercial Transportation plant within the TE Empalme, Mexico campus.

Reason: Dear Customer, we hereby inform you about a transfer of component mold tools and assembly processes. Mold Tooling will be transferred within the TEC Empalme, Mexico campus from an AUT to ICT manufacturing facility. The parts will be manufactured by the same tooling on excellent existing molding equipment and assembled on the same transferred production line. The transfer follows strict TEC procedures, which fully maintain quality, supply, and form, fit, and function of these products. The new manufacturing location operates under the same TEC certified quality management system in accordance with standard automotive / commercial vehicle requirements and has been successful manufacturing 4 million parts per month for TE for years. All shipped parts will be in boxes clearly marked with the country of manufacture. An internal release based on TE specifications will be executed before any parts are delivered. Level 3 PPAP packages by product family will be offered upon customer request.

Impact of Change:Manufacturing location change

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
