

19-Jul-2017

PCN #:P-17-014635

Subject:Additional Capacity

Description of Change: To better support our customers delivery expectations, TE will be adding a line capacity for the part numbers listed below. While the product will continue to run in the current manufacturing location, it is our desire to add capacities for plating of these part numbers at one of our TE Americas Automotive outside suppliers and thus dual source the components.

Reason: Product improvement. These efforts will position us better to serve your future needs. The outside supplier operates under a certified quality management system in accordance with standard automotive requirements.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
