PCN #:P-17-014637

Subject:AMP MCP2.8K FLAT TYPE RECEPTACLE

Description of Change: For China local customer requirement on localization on AMP MCP2.8K FLAT TYPE RECEPTACLE, New duplication production tool 11-1209524 transfer from TE Spain to TE Suzhou plant for production to support China marker,for this location change, it will shorten the L/T of delivery time and offer good service in China.

Reason: Dear customer. we would like to infor you with this PCN about introducing a new duplication production tool at our TE manufacturing location in Suzhou.China. The evaluation of new tool is executed by following A strict procedure.which guarantees no negative influence on quality , ability to supply and form-fit-funtion of the concerned products. Manufacturing location is under a certified quality magement system according the standard auto motomotive requirements. An internal release based on our specifications will be executed before any parts will be delivered,which guarantees the performance.Upon request, a PPAP Level 2 will be available if it concerns a transfer of a tool which produces a finished TE-product. A PPAP Level 1 will be available if it concerns a component of a TE-product, where the production location of the finished TE-product remains unchanged. If you require such a PPAP, please notify the responsible TE Sales Contact within 14 calendar days after receipt of this PCN

Impact of Change:Manufacturing location change
