

01-Dec-2017

**PCN #:**P-17-015140

**Subject:**MTC Contacts - adding in-house plating capability for increased capacity

**Description of Change:** Manufacturing location change. To allow for increased capacity for plating of the MTC contacts, plating at the TE Hermosillo facility for the following Part Numbers has been approved. Future shipments may come from either the existing external supplier, or from the TE Hermosillo plant.

**Reason:** Dear Customer, as a result of our continuous strive for improving our processes, we hereby inform you about the addition of a second source for plating for MTC contacts. The Hermosillo plating process has been approved by following a strict transfer procedure, which guarantees no negative influence on quality, ability to supply and form-fit-function of the concerned products. The new manufacturing location is under a certified quality management system according to standard industry requirements. An internal release based on our specifications will be executed before any parts will be delivered, which guarantees the performance.

**Impact of Change:**Manufacturing location change

**Key Dates:**

**Contact By Date:**28-Feb-2018

**Implementation Date:**28-Feb-2018

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
