

01-May-2018

PCN #:E-18-005851

Subject:AMPSEAL Sealed Connector Series

Description of Change: A duplication of the flange seal material dispensing equipment at the TE manufacturing plant in Empalme, Mx

Reason: This PCN is an advanced notification of manufacturing changes to the AMPSEAL Sealed Header Product Line. This product line has seen extensive demand increases that has impacted on-time deliveries. We are notifying you that a duplication of the flange seal material dispensing equipment is being released at the TE manufacturing plant in Empalme, Mx. This equipment will be used to address these significant demand increases in the AMPSEAL product line. Due to the urgency, TE is proceeding with the project and changes above. The effective date of assemblies from new dispensing equipment is targeted for 05/31/18

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
