PCN #:P-18-016250

Subject:31-39-62pos Leavyseal automation

Description of Change: As our continuous improvement of our processes we implement automatization project. We would like to change the manual assembly process of the below written part numbers to a semi-automatic high speed machine. The benefit of using this new automatic machine is the full quality control. Machine will be able to identify all components (and color, coding, positions and packaging to avoid any human failure.

Reason: Product improvement.New semi-automatic line 51-1085438in order to fulfill customer demand.

Impact of Change:form - fit - function
