

29-Mar-2019

**PCN #:**E-19-004598

**Subject:**DEUTSCH DT2pin and 3pin Plug and Receptacles (with welded caps) Identification and Date Code Marking Addition.

**Description of Change:** Part number identification and date code marking (see pictures below) to be added to the housings of parts manufactured in the TEC Suzhou (China) location.

**Reason:** Dear Customer, in order to identify parts manufactured in the TEC Suzhou China facility we are adding part number marking per the images above. This change affects only the appearance on DT2 and DT3 plug and receptacle connectors. Form, fit and function are not affected by this additional marking. Shipments of both versions may be mixed.

**IMPORTANT:** This is a continual improvement, the current and previous revisions of these parts can be used interchangeably in the field. The additional identification is being phased in gradually and previous revisions can remain stocked until use. A note will be added to the product drawing to indicate that the marking is optional and to be used only when parts are manufactured in China. Reference PCN Aug2017 E-17-010843. Please note that these parts are general market catalog products and PPAPs will not be provided unless specifically requested. If your company requires a PPAP, a request must be submitted to [ICT-PPAP-REQUEST@TE.COM](mailto:ICT-PPAP-REQUEST@TE.COM).
