

03-Dec-2021

PCN #: PCN-21-122354

Subject : RT relay:

Description of Change : RT relay:

TE will change the case material color at the PN mentioned within this PCN.

Reason for that change is a phase-out of the orange material within TE by replacing it with the same material but in black color.

Material's UL yellow card is identical as well as 100% the same material is used except the color.

This black cover material in connection with exactly this base material and adhesive is used in all washtight (RTIII) RT P&B relays like RTBxxxxxF, RTCxxxxxF, RTDxxxxxF and RTExxxxxF produced in Austria.

The relay PN will not be changed but revised, therefore no impact for customer's ordering procedure.

Reason :

Key Dates :

Contact By Date: 13-Dec-2021

Implementation Date: 13-Dec-2021

Product Affected	Alias Part Number	Substitute Part Number	AliasSub Part Number
3-1415540-2	"RT930056"		

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product

Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
