

14-Jan-2022

PCN #: P-22-021995

Subject : 369 Cabin Environment Connectors

Description of Change : Replacement Tooling and minor component geometry changes

Reason : Product improvement. Upgrade all mould tools to expand capacity and improve the performance of the connector. The opportunity was taken to introduce component geometry changes to improve component strength, robustness and durability of the connectors in service.

Dimensional changes have no impact on intermateability of connectors or accessories. The outer envelope dimensions of the connector remain unchanged.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.

Alert document created by IHS Markit based on content provided by TE Connectivity.
