

07-Jun-2022

PCN #: PCN-22-141366

Subject : DEUTSCH S&F Size 12, 16, 20 Pin & Socket Process Change

Description of Change : The Industrial and Commercial Transportation business unit of TE Connectivity is removing the lubricant on Gold (plating code 44) and Tin (plating code 77) terminals for the part number(s) listed below. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawing(s) are not affected.

Reason : Dear Customer, this change will align with other DEUTSCH size 12-20 gold and tin plated terminals (i.e. solid/machined). The change does not impact crimp application or product performance. There is no visual change. **IMPORTANT:** The changed and previous terminals can be used interchangeably in the field. The change(s) are being phased in gradually and previously shipped terminals can remain in stocked until use. Shipments of both configurations may be mixed.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.

Alert document created by IHS Markit based on content provided by TE Connectivity.
