

17-Aug-2022

PCN #: PCN-22-144249

Subject : HDP/HD Series Connectors

Description of Change : The ICT business unit of TE is adding an alternate material for the pin front component of the part numbers listed below. Due to global colorant shortages the new material will be required to keep up with demand. The alternate material is black in color, and both the current material and new material are V2. UL re-certification on the connectors is in process. The current material will remain in use until stock is depleted. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawings are not affected. Shipments of both configurations may be mixed.

Reason : Dear Customer, we hereby inform you of this change. Due to global material shortages an alternate material is necessary to keep up with demand. **IMPORTANT:** The current and previous revisions of these parts can be used interchangeably in the field. The change is being phased in gradually and previous revision can remain stocked until use.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.

Alert document created by IHS Markit based on content provided by TE Connectivity.
