

13-Apr-2023

PCN #: PCN-23-171465

Subject : DEUTSCH DT 2 Position Plug Assembly Capacity Increase

Description of Change : The Industrial and Commercial Transportation business unit of TE Connectivity is increasing capacity using a new automated assembly machine for the part numbers listed below. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawing are not affected.

Reason : Dear Customer, we hereby inform you of this change. The new assembly process is necessary to better meet our Customers demand needs. The change does not impact connector performance. **IMPORTANT:** The current and previous revisions of these parts can be used interchangeably in the field. The change is being phased in gradually and previous revision can remain stocked until use. Shipments of both configurations may be mixed.
