

16-Jun-2023

**PCN #:** PCN-23-178766

**Subject :** Part to drawing revision level matching

**Description of Change :** Dear valued customer,  
Please ignore PCN-22-159110 due to wrong First shipment date mentioned

In an effort to maintain same revision level of parts across entire documentation and to avoid conflicts between revision in shipping labels to drawings, we are aligning Product drawing revision & Central Part Registry revision level.

Also we use this opportunity to fix rounding and conversion errors (from inch to mm / mm to inch) to avoid mismatch between Product drawing and shipping labels. This change is for administrative purpose only and there is no change in Form, Fit and Functions of the product.

This change will be processed with PPAP level 1 / First Article Inspection (FAI). If you need PPAP document, then apply for e-PPAP.

Existing inventory to be consumed in First In First Out (FIFO) basis. (There is a cooling period of 180 days upto which part with old labels can be shipped)

We thank you for your business and look forward to servicing you through our standard part offerings in the future.

**Reason :** Update made to improve document clarity

**Key Dates :**

**Contact By Date:**31-Aug-2023

**Implementation Date:**31-Aug-2023
