

06-Jun-2024

PCN #: PCN-24-210155

Subject : DEUTSCH DT 2 & 3P integrated resistors

Description of Change : The Industrial and Commercial Transportation business unit of TE Connectivity is standardizing the DT integrated resistor receptacle housings and caps to snap geometry (without latch protection for the PE01 mod). This change ensures a cohesive product with consistent aesthetics across the product line as their housings and caps will migrate from our ultrasonic welding geometry to our snap geometry for the part number(s) listed below. This geometry migration will result in an increase of 0.064 inches on the 3P plugs and receptacles, the 2P receptacles will keep their dimensions. The color of the cap change to black can be referenced through PCN-23-192205. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawings are affected.

Reason for Change: Dear Customer, we hereby inform you of this change. The change is necessary to standardize the design of our integrated component connectors (resistors) to the snap-cap style. The change does not impact performance. **IMPORTANT:** The current and previous revisions of these parts can be used interchangeably in the field. The change(s) are being phased in gradually and previous revision can remain stocked until use. Shipments of both configurations may be mixed.

Key Dates :

The dates on the product change notification (PCN) are best estimate dates determined at the time of

issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
