

06-Dec-2012

PCN #:P-12-008635

Subject:MTA-100 Header Assembly

Description of Change: The header pins were changed from matte tin-plating to bright tin-plating in July 2011. A PCN was issued prior to the change and covered 84 header part numbers on 12 drawings. We recently learned some part numbers and drawings had been missed. This courtesy PCN will covers 53 part numbers on 14 drawings. Another courtesy being released at same time will cover the remaining 58 part numbers on 9 drawings.

Reason: Product [improvement.to](#) bring pin plating within a TE Connnectivity manufacturing facility.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
