PCN #:P-13-009165

Subject:121 position ECU Header

Description of Change: Dear customer! TE would like to improve the production of 121 position header and this involves 2 design adjustments at the mentioned part numbers. The implementation date is not fixed yet, according to the calculation it will take place at December 2013. The molding tools effected by the design change will be modified step by step in order to keep the ability of the continuous supply of products. The design which is changing is not defined in the customer drawings. For deep presentation about the modifications please contact Szabolcs Gaspar from TE Connectivity: szabolcs.gaspar@te.com.

Reason: Product improvement.

Impact of Change:form - fit - function
