

13-Jun-2013

PCN #:E-13-008510

Subject:Universal MATE-N-LOK-II 20-14 Socket Contact

Description of Change: Switch raw material part numbers on the production drawing between 770006-3 and 770006-4. This should have no impact on either contact as the on-line Bill-Of-Material shows the correct raw material numbers. PN 1-770006-0 will not change. It must be included because the drawing revision must be increased and the revision of all active dash-numbers must also be increased. The W18 and other environmental documentation will be corrected.

Reason: Document clarification. A drafting error was just discovered on Engineering Change Notice 0G3B-0506-03, which occurred in 2003. This is a documentation change only.

Impact of Change:form - fit - function

Key Dates:

Contact By Date:08-Jun-2013

Implementation Date:08-Jun-2013

Product Affected

770006-3

1-770006-0

770006-4

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
