

Technical change to RSX LOETST. LP, RSD and RSD A/K families

Dear Madam or Sir,

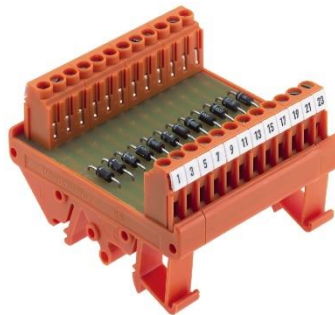

The above listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

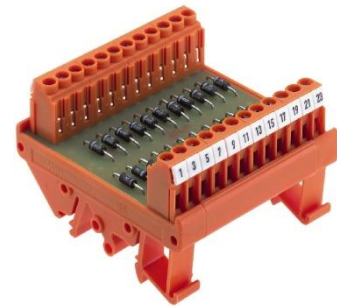

RSX LOETST. LP, RSD and RSD A/K LP had no UL approvals and were delivered with LP connectors which will be obsolete very soon. They were also delivered with Dekafix. Furthermore these families had no UL approval

Current RSX LOETST. LP

Current RSD

Current RSD A/K

2. Technical change

Based on continuous improvement the LP connectors used in RSX LOETST. LP and RSD family will be replaced by LL connectors + tampoprint. Furthermore the label will be changed to fulfil with UL approvals.

RSX LOETST LP has been released according to UL recognized requirements.

UL ratings: 250V / 4A

All **RSD family** modules have been also released according to UL recognized requirements.

UL ratings: 230V / 1A

3. Reason for change

Obsolescence of LP connector range and addition of **UL recognized** approvals on the label for these products

4. Availability

Current products in stock still have old connectors and have compatibility indicator 0. Since today new productions will be with new modifications detailed above (new comp. indicator: 1). As time goes on, products with compatibility codes 0 will decrease until end of stock following a FIFO process.
